

***THE EUROCARIBBEAN UNIT EXHIBITION (YEAR 8): OUR
CRUISE IN THE CARIBBEAN, MARCH 20-27 2011***

Meet our ship, the Costa Mediterranea which can welcome 3000 people.

You can see a ship bigger than our Costa Mediterranea!

Relax by the pool or sit in the Jacuzzi!

A good breakfast, which will help you begin a good day. It is made of exotic fruit and of pastries.

This is the slide at the back of the ship. It's very fun because it is long and quick and loops you down in 20 secs!!

DAY 1: ST MAARTEN

This roundabout welcomes you in colours.

These statues of the **Salt Pickers** remind us of the economic past of the island based on salt.

A school bus of St Martin

DAY 2: THE DOMINICAN REPUBLIC

The salsa dancers welcome you in traditional outfit, like we did!

-----ALTOS DE CHAVON-----

Inside Altos de Chavon, meet the ruins of an amphitheater and the ruins of an antique arena.

An amazing view of a lake in Altos de Chavon.

DAY 4:

TORTOLA, it is part of an archipelago, the Virgin Islands made of 61 islands. They bear this name because a king came with a hundred virgin girls!

A bus in Tortola

During our excursion, we saw dolphins, and then we went to the beach and took pictures. Finally, we saw some pupils in Ivan Dawson primary school.

DAY 5: ANTIGUA

The museum downtown, where craft examples and the history of the island are exhibited.

DAY 6: BARBADOS

1. On the premises of the cave you find paintings on the history of Barbados. It is quite interesting!

A bearded fig tree, it is at the origin of Barbados's name because when the first settlers came on the island and saw the trees, they reminded them of bearded men (los Barbados)

Inside you can find a souvenirs shop of Harrison's cave. It also leads you to the cave. First, the visit starts with a video on the birth of Barbados, and then you board a little train.

A showcase of stalagmites and stalactites, you will see the true ones further.

Inside Harrison's cave! More precisely here is called "the village"; there are stalagmites and stalactites.

which ones come from the ground?
which ones come from the ceiling?

This is the chapel of Harrison's cave.

A flow of calcite

DAY 7: End of our cruise, we are back to Guadeloupe where we will fly back to Martinique, how time does fly!
